DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Mitchell 2,023,027.

Mitchell discloses a power tool D mounted on guide rails 2 and 20. The guide rails are transverse to one another and joined at a junction 16. Guide slides 6 and 9 are displaceable on the guide rails. The power tool D is coupled to the guide slide 9. Junction 16 is displaceable axially with respect to guide rail 20 by threads 19 threading into rail 20. The junction 16 interconnects the first rail 2 to the second rail 20. As to claim 2, the junction 16 is at the end of each guide rail. As to claim 3, the junction is coupled to each rail and rail 20 is coupled to the base plate P. As to claim 4, the junction 16 allows rail 2 to be pivoted with respect to the junction and rail 20.

Allowable Subject Matter

Claims 5 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
